2005 School Report Card Database File Layouts

February 1, 2005

IMPORTANT NOTES FOR THE NEW JERSEY 2005 SCHOOL REPORT CARD DATABASES:

1. Changes to the 2005 New Jersey School Report Card Database

1) The reporting of the following data items is changed:

School Header Data:
a. School type I is no longer used as a designation. All such schools are classified as H.
b. DFG N classification is used for schools districts in which no District Factor Group
    was assigned.

Staff Information Data:
a. The faculty turnover rate is called the faculty mobility rate in the 2005 Report Card.
a. The percent of faculty with license/certification only or license/certification and an
academic degree are included in the 2005 Report Card.

Charter School Data:
a. The charter school length of school year is reported on the schinfo1 table.

Post Graduation Data:
a. Undecided students are reported as a separate category.

Assessment Data:
a. Assessment data are aggregated using the District Factor Groups based
    on the 2000 Decennial Census.

2. General Notes:

1) As a general rule, an asterisk in the data file indicates the data has been suppressed.

2) As a general rule, a blank in the data file indicates that the data item is not applicable to
   the school or the group.

3) district record has a dummy school code of 888.

4) DFG record has a dummy county code of 88, dummy district code of 8888, and dummy
   school code of 888.

5) state record has a dummy county code of 99, district code of 9999, and school code 999.
